

## WEBENCH® Series Voltage Reference Selector

ADC Selected: ADS7949

Resolution: 8

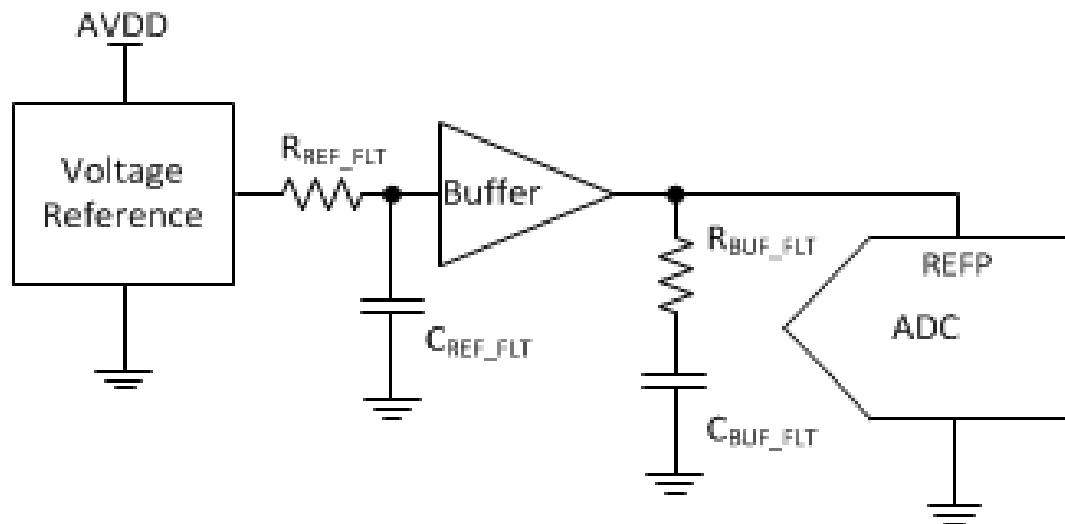

INL : 0.3

DNL : 0.3

Digital Supply Min : 1.65

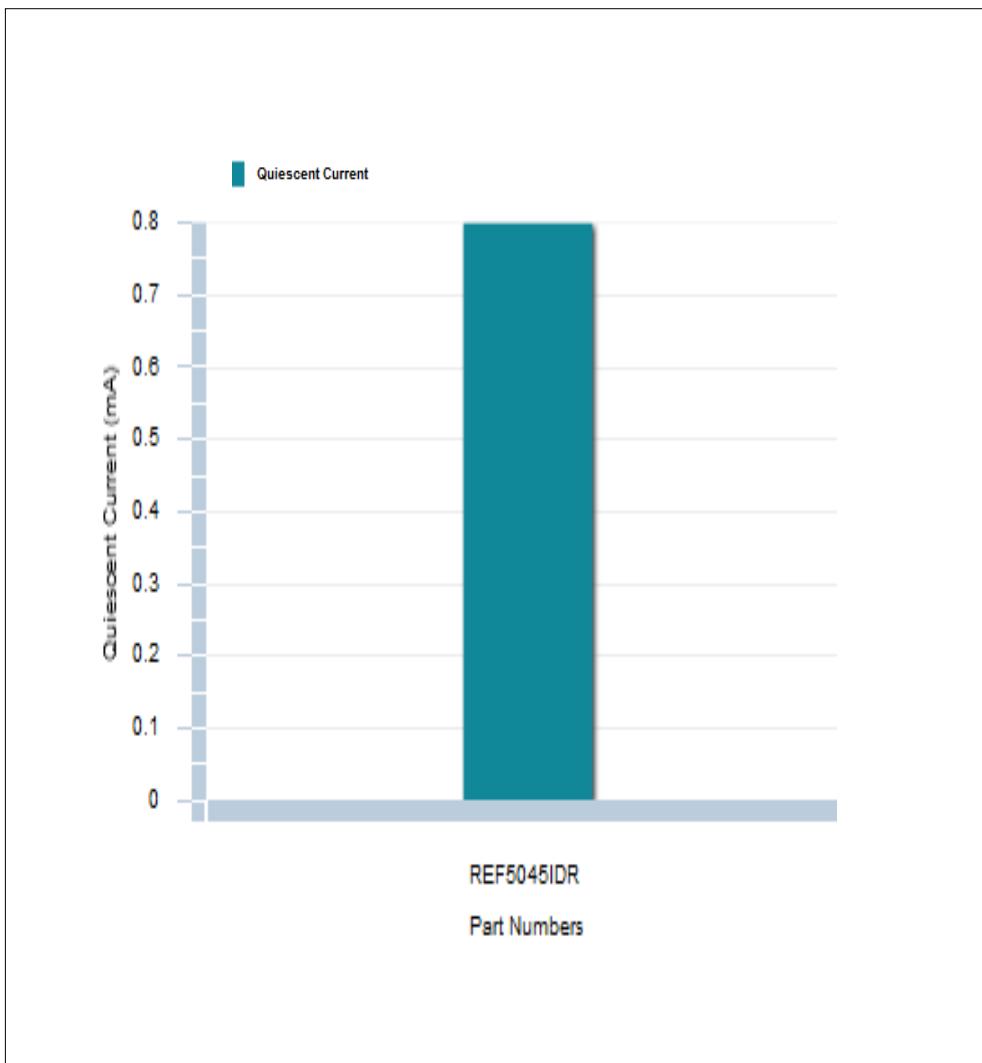

Digital Supply Max : 5.25

ADC Noise : -

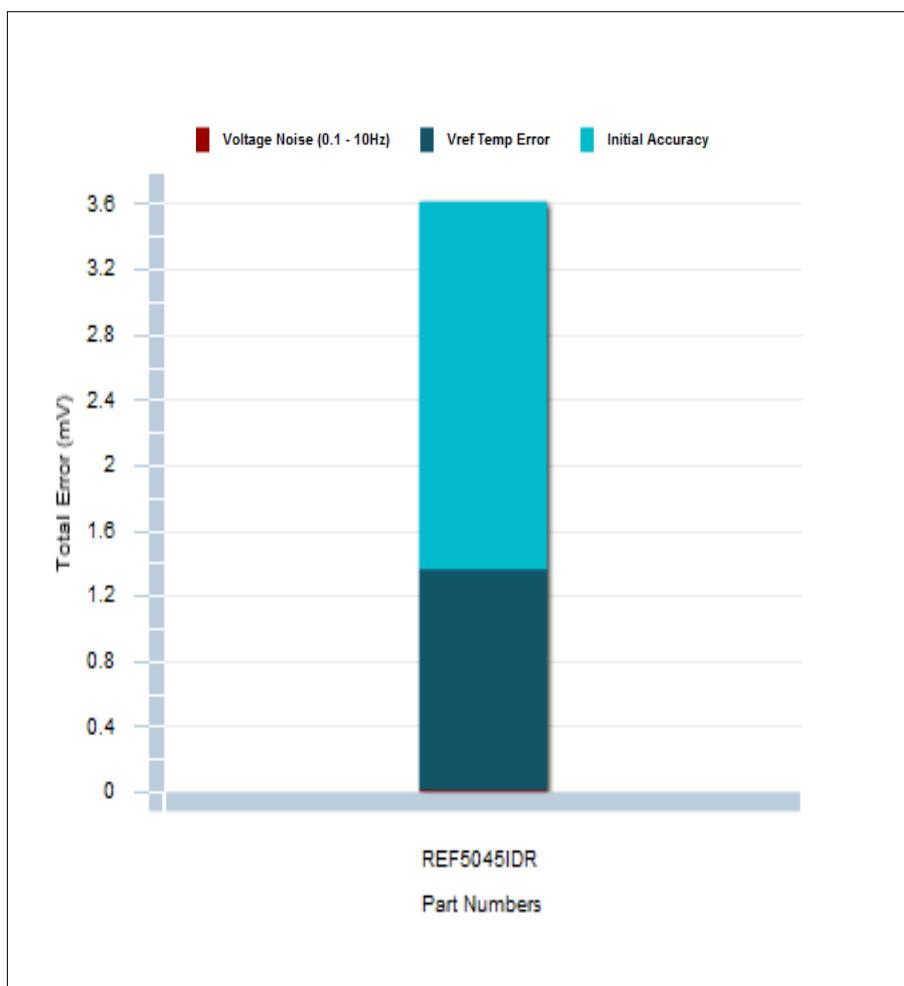

## Series Voltage References

| Part Number | Reference Output (V) | Initial Accuracy (%) | Temperature Drift (°C) | Quiescent Current (mA) | Min Operating Temperature (°C) | Max Operating Temperature (°C) | Voltage Noise (µVp-p) |
|-------------|----------------------|----------------------|------------------------|------------------------|--------------------------------|--------------------------------|-----------------------|
| REF5045IDR  | 4.5                  | 0.05                 | 3                      | 0.8                    | -40                            | 125                            | 13.5                  |

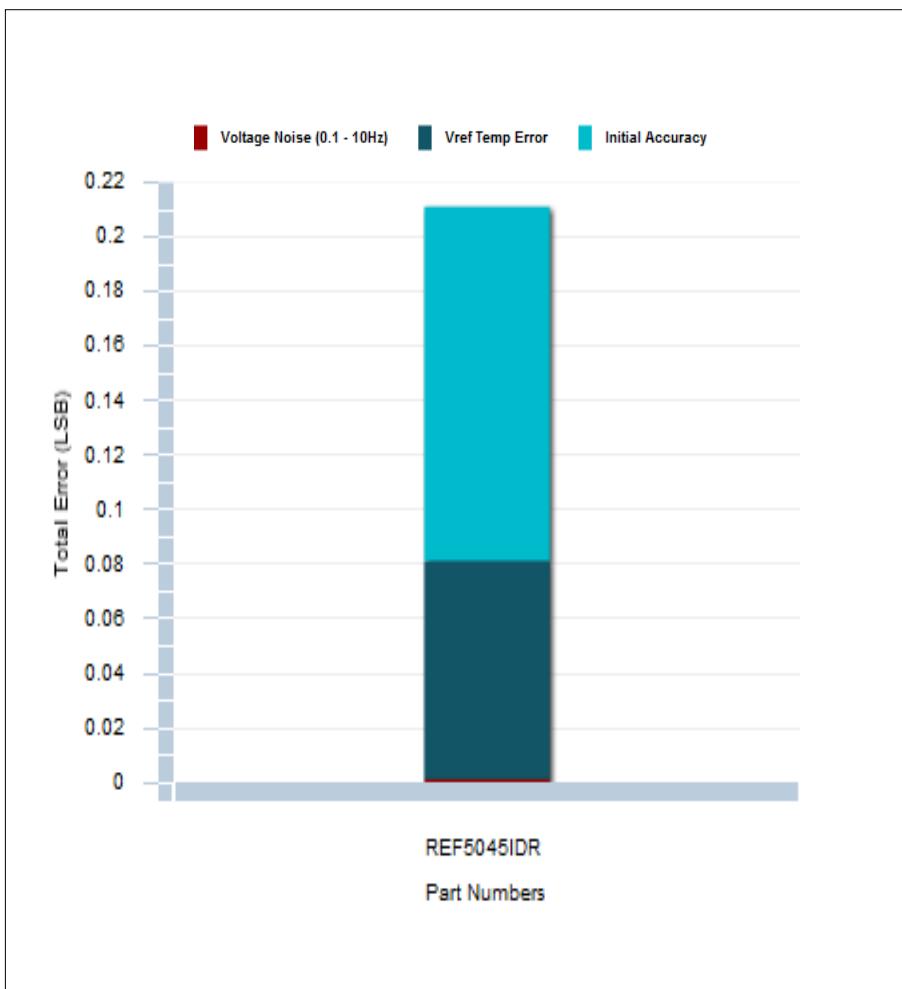

## Reference Error Comparision in miliVolts (mv)

| Part Number | Reference Error (mV) | After Calibration (mV) | VRef Offset (mV) | VRef Offset Drift (mV) | Noise (mV) | Initial Accuracy (%) | Temperature Drift (°C) | Quiescent Current (mA) |
|-------------|----------------------|------------------------|------------------|------------------------|------------|----------------------|------------------------|------------------------|
| REF5045IDR  | 3.6                  | 1.35                   | 2.25             | 1.35                   | 0.014      | 0.05                 | 3                      | 0.8                    |

## Reference Error Comparision in Least Significant Bits (LSB)

| Part Number | Reference Error (LSB) | After Calibration (LSB) | VRefOffset (LSB) | VRefOffset Drift (LSB) | Noise (LSB) | Initial Accuracy (%) | Temperature Drift (°C) | Quiescent Current (mA) |
|-------------|-----------------------|-------------------------|------------------|------------------------|-------------|----------------------|------------------------|------------------------|
| REF5045IDR  | 0.2                   | 0.08                    | 0.13             | 0.08                   | 0.2         | 0.05                 | 3                      | 0.8                    |

## Reference Error Comparision in % Full Scale (%FS)

| Part Number | Reference Error (%FS) | After Calibration (%FS) | VRefOffs et (%FS) | VRefOffset Drift (%FS) | Noise (%FS) | Initial Accuracy (%) | Temperature Drift (°C) | Quiescent Current (mA) |
|-------------|-----------------------|-------------------------|-------------------|------------------------|-------------|----------------------|------------------------|------------------------|
| REF5045IDR  | 0.08                  | 0.03                    | 0.05              | 0.03                   | 0.08        | 0.05                 | 3                      | 0.8                    |
